## COAST CLIPPINGS.

Los Angeles is to have a horticultural fair this fall.

The Sacramento river yesterday stood at the 9 foot mark.

The Arizona press ask for a Mint to be established at Tucson.

San Luis Obispo, Cal., crops look fine and real estate is booming.

A new mining district in New Mexico creates a great excitement.

The Carson valley ranchers are compelled to employ Chinamen to harvest their crops.

The Eureka Consolidated Company has paid seventy-five dividends, amounting to \$4,817,500.

Patrick Biggens killed Chris. Alexander, at Berauda Station, Fresno county, Cal., Sunday. Both men were drunk.

Governor Tittle returned to Tucson, A. T., Saturday night, and was serenaded by a large and enthusiastic body of citizens.

The Eureka Tunnel Company is again shipping ore to the Eureka Con. works, and their mine is looking exceedingly well.

No clew has been found to the murderers of E. H. Cummings at New York Bar. It is thought that he was robbed of from \$500 to \$700.

Several Eureka families have quit buying garden truck from the Chinese peddlers, owing to the filthy manner in which the vegetables are raised.

While in Bristol, Nev., Father Maloney lectured for the benefit of the school at that place. The net proceeds of the lecture footed up \$178.50.

Fruit of all varieties in California is suffering more from pests this year than ever before. This is particularly the case with regard to apples and peaches.

Anglers in Montana predict that in a very few years the trout will all disappear from the valley streams, owing to the immense numbers carried out into irrigating ditches and into the fields.

The hop-raisers of Sacramento county will make large profits on their crops this season. The price of hops, owing to a failure of the crops in England and other places, is higher than it has been for fifteen years.

The beavers along the Feather River have been playing havoc among the hogs in the bottom lands. Ezra Morrison informs the Gridley Herald that he has had quite a number killed by them.

Last Tuesday Carrie Parker of East Portland threw herself into Asylum Slough for the purpose of drowning herself, because her father refused to let her wed George Chambers. She was rescued by her brother. She and Chambers were married Sunday night.

It is said that there is gold enough in Snake River valley, Idaho Territory, to pay the national debt, if it could be saved. On hundreds of thousands of acres it can be found with a common gold pan. But the gold is so light that it escapes all known processes.

A curiosity in the shape of a vast army of small weeds is seen at Linkville, Oregon, and vicinity now. They are migrating up Klamath river, and are so numerous that on large areas it is impossible for a person to walk without stepping on them.

The Yreka Journal says the amount of mail carried by the California and Oregon stages at present is enormous. Extra stages are run to relieve the pressure. The stages going north carry every trip 4,500 to 5,000 pounds, in addition to passengers, express and baggage, the mail having the precedence of everything. There never has been such an extensive quantity of mail since the old California Stage Company's days.

Our Assistant Postmaster, John Bliss, Esq., uses the Great German Remedy for lameness, rheumatism and pains of every description, says the Lawrence (Kan.) Journal. He claims that St. Jacobs Oil is the best thing that was ever applied to man or beast.

## WHO SHALL LEAD US.

A very interesting question but rather a hard one to answer is, who shall be President in 1883. None of the present leaders of either party seems to stand so pre-eminent as to have even a strong probability of receiving a nomination. Blaine seems destined; like Henry Clay, to whom he has been compared, to be a candidate for a long series of years and die without achieving the coveted prize. Sherman has bitter enemies and active slanderers not only in the opposing but in his own party and he has not the magnetism to overcome them. He appealed in vain once to the gratitude of the country for his brilliant services as a financier and he will probably never make another attempt to be President. Grant is not to be thought of and Conkling is a political corpse of the second rank. Robert T. Lincoln and Senator Windom are young men with possibilities. President Arthur will no doubt try to succeed himself, and if any Vice President ever had tact sufficient to please well enough to be renominated he may be the man. Still there are very large chances against him. Among the Democratic politicians there are several who would make good runs, but no head sticks up high enough now to be conspicuous. The man who seems most likely to poll a big vote at the time will be the nominee. It seems just now that party lines are very indistinct, and the issues very small. The result of such a state of affairs is usually a new crop of leaders, and as there will doubtless be new issues then so doubtless each will have apostles and they will gain followers. Certainly the country cannot very long remain divided into two parties with no other motive than for the outs to say, "Turn out those thieves and let us in honest men," and the ins to say, "Keep us in and those fellows out or they will ruin the country."

## EDITORIAL NOTES.

In a Spiritual Journal published at San Francisco is an account of an interview with a particularly bright disembodied spirit. Among other things the spirit says creation of the body is painful to the spirit; so also are post mortems; the spirit requires to draw strength from the body and is not entirely free from the body until the third day; spirit clothing is not made by machinery, but by the Power that produces the spirit; the planets have much to do with our destiny; we would be more spiritual if we discarded flesh food; a planet controlling the earth is making a change that will cause much trouble; but, first, half of us must be killed off, etc., etc.

The San Francisco Post, as the Reno GAZETTE moved by party spirit, has blindly come to the aid of the officers of the Carson Mint, and in making its first faint pretensions it staggered against the Virginia Chronicle. The retirement which the latter paper gave the Post Saturday afternoon was so ably given, timely and apropos we reproduce it for the benefit of our readers. Will the Post remain as quiet in its retirement as has the GAZETTE? We hope not.—Carson Bee.

If the Bee will go ahead with its "investigation" and give the public some tangible proof that dishonesty exists in the management of the Mint, we think that journal will find that the Republican papers will do as much towards showing it up as will the Bee or Chronicle.

Speaking of the effort of the Democratic Convention to kill off the day of "rest" or recreation, or worship—as one chooses—the *Russian River Flag* says: "Earnest protests are heard from every section of the State against this bid of the Democracy, and these protests are not by any means confined to Republicans. Many good Democrats are sincerely ashamed of this action of their party, and they are making themselves heard and felt."

Secretary Teller has decided that it is not necessary for a pre-emptor of timber lands to do the work required the first year, provided it is done before a contest is instituted.

## TO-DAY'S NEWS

Press Dispatches to Evening Gazette.

## EASTERN.

The Tariff Commission.

**LONG BRANCH, August 1.**  
The Tariff Commission resumed session yesterday. Assistant Secretary French gave his views as to the importance of the creation of a tribunal for a speedy determination of disputed questions arising from time to time in Customs cases. Owing to the death of Garfield and the change in the Cabinet, the plans for the tribunal had fallen through. It had been opposed also by lawyers who were interested in the numerous litigations pending. He favored a plan for the creation of a Customs Court, composed partly of experts and of one or two eminent lawyers, the members of the Court to receive a salary of \$5,000 or \$6,000 yearly, permanently, and to sit in New York. He would have the decision of the Court final and unappealable. He then gave a history of the whole sugar question. After recess John D. Dix, of New York, was heard in the interest of the drug trade. A representative from the New Orleans Cotton Exchange was also heard.

## Our Navy Yards.

WASHINGTON, July 31.

The advisability of empowering the Secretary of the Navy to close useless navy yards and transfer perishable stores and property to other yards and require him to report the facts in each case to Congress, was discussed in the Senate to-day by Bayard and Plumb, as to the effect which the concentration of the civil establishments in other yards at a favored point might have in influencing elections. Plumb maintaining it could have no effect as the appropriation for the civil force of the yards is inadequate. Bayard contended that an exception should be made in favor of the plant or machinery, the cost of which involved millions of dollars. He regarded such a scheme as having the effect to cripple the yards, and thought this would be injudicious at this time when we had the ruins of a navy behind us and the probable creation of a new one as work in the future.

## The Denver Exposition.

DENVER, Col., July 31.

All the details of the programme of ceremonies attending the opening of the National Mining Exposition tomorrow have been perfected. They embrace a parade of the militia and civic societies, an oration by the Hon. W. D. Kelly, of Pennsylvania, a formal starting of the machinery by Lieutenant-Governor H. A. W. Tabor, the President of the Association, and throwing open of the gates. Mr. Kelly arrived this morning, and was met at the station by a party of representative citizens and escorted to the hotel. The exhibits are not all in place yet, and there is some little confusion and disorder, but all will be straightened out and working smoothly in a few days.

## Jessie James' Murderer.

CHICAGO, August 1.

Bob Ford, who killed the notorious outlaw, Jessie James, and his brother Charlie Ford are in this city enjoying life in spending the \$10,000 which they received as a reward for ridding the country of the outlaw leader. In an interview in the wings of a variety theater last night they said they would stay here about a week and then go to Cincinnati. Bob Ford says Frank James was in good health when he last saw him. He does not believe Frank will ever attempt to reorganize the gang.

## The Michigan Forest Fire.

EAST TOWNS, Mich., August 1.

The rains extinguished most of the fires, but those on East Towns Lake and north of Wilber started again Sunday afternoon, burning with great violence. They were confined, however, to the Back River timber and cedar. But two farmers have been burned out since the last report. J. Smith, on the East Towns road, lost his house, barn and crops. Mr. Wright, on the Hemlock road, lost his house, fences and crops.

## The Bill to Retire General Grant.

WASHINGTON, July 31.

In the House of Representatives to-day, the Senate bill to provide for the retirement of U. S. Grant, late General and ex-President, having been reached, McKeezie, of Kentucky, moved that it be laid upon the table. Lost—yeas, 77; nays, 88. The bill was then referred to the Committee on Military Affairs.

## The Chesapeake and Ohio Railway.

CHICAGO, August 1.

C. W. Smith, general manager of the Chesapeake and Ohio Railway, speaks in enthusiastic terms of the future of this road. He says since they completed their road to Newport News and put on through trains of Pullman cars between Louisville and

Washington, their trains have been crowded and they have found it necessary to order a large amount of additional rolling stock. It is expected within two years that the gap between Memphis and the present eastern terminus of the Southern Pacific will be completed and trains then will be made up to run from Newport News on the Atlantic to San Francisco.

## The Amalgamated Association.

CHICAGO, August 1.

About 250 delegates to the Amalgamated Association of iron workers convened this morning, representing every section of the country, and being in appearance a most intelligent class of men. Mayor Harrison, in welcoming them, announced that he was an original working man and was in thorough sympathy with them. President Jarrett made a brief speech, and Wm. Carpenter, of Springfield, Ill., urged the necessity of organization, and presented the benefit to be derived from the workmen taking an active interest and part in politics. The Association then closed its doors, and a secret session began.

## Damaged by a Flood.

CINCINNATI, August 1.

About noon Licking river at its mouth, opposite here, assumed alarming proportions. The rise from above rushing into the Ohio caused great damage. Twenty-one barges, tied along the shore, were swept from Swift's landing—10 of coal, one of stone and one of coke among the number were lost. The hull of the steamer Champion sunk; Charles Forbes' boathouse was carried down the river, and various other losses will swell the total loss to \$50,000. The river has risen 28 feet since last night and is now running furiously.

## Meeting of Railroad Officials.

BOSTON, August 1.

President Perkins, of the Chicago, Burlington & Quincy Railroad, and Vice President Atkinson, of the Union Pacific Railroad, with counsel and members of both directories, held a conference here in reference to the settlement of the Colorado difficulty. Another meeting will be held Wednesday, with President Dillon in attendance. In the meantime, both parties have forbidden any cutting rates on their lines.

## A Narrow Escape for Engineers.

SOUTH BEND, Ind., August 1.

Two freight trains collided on the Lake Shore railroad just west of this city this morning. The cars to the number of sixty were piled upon the engines and taking fire burned up. The engineers were buried under the debris but were rescued before the flames reached them. There were tramps on the train and four of them insist that seven of their comrades are in the burning mass. The loss is estimated at \$150,000.

## Opening of the Denver Exposition.

DENVER, Col., August 1.

The National Mining Exposition opened to-day at 12 o'clock. Nearly every western State is represented. The military from Leadville and other towns in the State participated in the opening exercises. The city is crowded with strangers. Hon. Wm. D. Kelly, of Pennsylvania, is now making the opening address.

## A Flood in Kentucky.

CINCINNATI, O., August 1.

## Kansas Politics.

TOPEKA, August 1.

Governor St. John's nomination and consequent election for a third term are now assured. He has already 196 of 370 delegates, and his vote is likely to exceed 220.

Particulars of the Burning of the Gal. lost.

LONDON, August 1.

During the fire on the steamship Gellert the cabin passengers were drawn up on deck awaiting orders. Most of the steerage passengers were Polish Jews, who howled and screamed horribly. The course of the vessel was changed so as to bring her into the most frequent track of ships. When the deck was cut the iron was found to be red hot. If the fire had continued a few moments longer it must have communicated to the state rooms and to a large quantity of resin, when it would have been impossible to save the ship.

## Mexican Revenues.

CITY OF MEXICO, August 1.

Mexican revenues the last fiscal year amount to \$37,500,000, an increase of \$4,500,000 over the year previous.

## EGYPT'S TROUBLE.

Arabi Pasha still Troublesome—De Lesseps Defies England—Russia about to Quit Her Passive Attitude—An Emissary Dispatched to Arabi's Camp.

ALEXANDRIA, July 31.

There are troops enough here to hold Alexandria against any attack by Arabi Pasha, though scarcely enough to drive the enemy back to Cairo. Arabi has organized a committee of five officers in Cairo to prepare for defense. Many peaceful natives have been arrested for lukewarmness in Arabi's cause. There is no hope of good results from the negotiations between the Khedive and Arabi Pasha. A large number of the worst class of Bedouins are marching from Maseout toward Alexandria.

PORT SAID, July 31.

De Lesseps, having heard his Majesty's troop ship Orion had stopped at Ismalia, and intended landing men there, started on Thursday night for that place. He is said to have declared the English should land only after passing over his dead body and that of his son Victor. His course is condemned by all Europeans.

MADRID, July 31.

At a meeting of 2,000 persons at the Alhambra to-day it was decided to appoint a committee to urge the Government to increase and strengthen the naval forces of the country.

BERLIN, August 1.

The refusal of Italy to cooperate with England in putting down Arabi Pasha may be taken as representing the attitude of Germany and Austria. High authorities at Berlin assert that Russia is about to quit her passive attitude in favor of one directly hostile to British pretensions in Egypt. It is reported that England, under certain circumstances, would undertake the task of restoring order in Egypt.

LONDON, August 1.

The Times says the time has gone by when Turkey could be allowed to take the whole matter into her own hands. If Turkey goes to Egypt she must not go as an ally, but as a subordinate of England.

ALEXANDRIA, August 1.

Fears of a failure of the water supply have subsided. The number of Christians that have been murdered at Dawinbaur, Tanfah and Nihalla is now estimated at 550.

CONSTANTINOPLE, August 1.

According to intelligence received from a diplomatic source the action of Russia is due to the personal initiative of Czar Alexander, who is dissatisfied with the independent attitude of England and with Gladstone's repeated declarations that England, under certain circumstances, would undertake the task of restoring order in Egypt.

ALEXANDRIA, August 1.

The state of the town is causing serious disquiet. The natives who remained are incendiaries, and the majority of those who have returned are looters looking after their concealed plunder. It is impossible to mistake the bitter hostility of this class and of the native police.

ALEXANDRIA, August 1.

The Khedive has dispatched a native emissary to the camp of Arabi Pasha for the purpose of procuring the release of midshipman Dechair.

Ex-Supreme Judge John Garber and family passed through Reno last night en route from Lake Tahoe to San Francisco.

Dave Evans is in from his ranch. When the N. & O. reaches the junction Dave proposes to give a grand ball. About September 1st he thinks he will need the music.

The platform at the depot was crowded last evening by the young friends of Miss Emmi A. Fish and Miss Ella Bishop. The two young ladies took their departure for Oakland to enter Mills' Seminary.

Officers Grey and Avery made a raid on the vags the other night armed with 10 warrants. They only succeeded in serving a part of them. Several noted characters have left the town within the last day or two.

M. Nathan has made up his mind not to be outdone by any other clothier east of San Francisco. He will shortly lay in one of the most extensive stocks ever opened in this State. He has now an elegant stock of everything in his line and is selling goods low—very low. Call in.

Perkins & White are making important changes in the interior of the Palace Hotel. The tiger's cage has been moved to near the center of the bar-room, and the place the festive Bengal occupied, in the rear of the building, will be partitioned off into card rooms.

Where to Get Information.

If you are anxious to know what the politicians are doing, drop into Chase & Thyes saloon, order a punch of some kind, anything you want, they have got it—and take a seat at any table in the rooms, pick up a newspaper and wait until you find out what you want to know. Governors, Congressmen, Senators, Sheriffs, Commissioners, County Clerks, Justices of the Peace and Constables, are all there and anxious to talk. Try it.

Douglas County Politics.

The Douglas county Republican Central Committee held a meeting on Saturday, in Genoa, and resolved to hold primaries for the election of State and county delegates on August 19. It was resolved that delegates to the District Judicial Convention be elected separate from State and county. This was done to prevent trading by the State delegates.

Election of Officers.

Washoe Engine Co., No. 2, last evening elected the following officers: President, Wm. Webster; Foreman, Morris Ash; 1st Asst., Frank Perkins; 2d Asst., John Hoy; Secretary, C. H. Stoddard; Treasurer, H. P. Krause; Steward, Wm. Hamilton.

Sam Davis and the Mormons.

Sam P. Davis and family came in from Salt Lake last night and went to Carson this morning. He says he is glad to get back to western Nevada again. Sam is very proud of his little girl and handles the baby with the skill of an old matrimonial war veteran. He wears safety pins on the front of his coat, and says he can put on a diaper as quick as any mother in Utah. He likes Utah and doesn't particularly object to the Mormons, but says they are very handy in a poor man's coal bin. One of his neighbors made a practice of filling his coal-scuttle from Sam's bin all Winter, but late in the Spring the determined and irrepressible reporter made Mormon blood congeal when he went for him with a shot gun filled to the muzzle. Sam's coal pile was never diminished by meddlesome Mormons after that. Mr. Davis intends going to the Lake for a few weeks to rest and enjoy life. He does not expect to take charge of the Appeal for several months yet, and hardly knows where he will locate.

Industry Rewarded.

In 1870 two Spaniards, named Jose Equiga and Juan Almadiz, says the Silver State, came to this county direct from Spain. They could not speak a word of English, and could not do anything except herd sheep, having been raised in the mountains and followed the occupation of shepherds from childhood. They hired out to tend sheep at \$30 per month and board, and in a few years invested their savings in flocks of their own. Last week they sold out their sheep and range for \$18,000, and left for their native land, where they have a bank account of several thousand dollars, which they had sent home when they sold their wool last year and the year before that. They were sober and industrious men and accumulated a nice little stake under circumstances which would have discouraged less energetic men. They intend to return next Spring if they succeed in getting mated this Winter.

Blood Poisoning.

The Elko Independent of last Friday says: Mrs. Joseph McConnell, of Beowawe, arrived here by the train a couple of days ago, bringing her little 4-year-old son, who was seriously ill, for medical treatment. The little fellow had been running about in his bare feet, and accidentally bruised severely the ball of one of them. The wound was regarded as a trifling matter at the time, but it continued to grow worse until the case became very serious before the parents suspected the fact. Immediately upon becoming aware that the injury required it, medical aid was sought as above stated, but assistance came too late, the little sufferer dying last night from the effects of blood-poisoning.

California Fair.

The California State Fair will have the biggest stock show this year they have ever had. Baldwin, Stanford, Hicks, Winters, McM. Shafter, Valentin and others are competing, and will have stables there. There will be sales of all kinds of cattle and horses during the week. The speed programme is the best ever adopted by that society, and the races have been all filled. The hotels in the city have concluded that extortion Fair week has been a detriment in former years and have concluded to charge just the same rates that week as at any other time. The Fair commences September 11th. Read the Society's ad. under "New To-day."

The Caledonian Picnic.

The Caledonian Club picnic next Saturday will be a grand affair. Everybody is going and the members are making preparations to entertain all who attend. In addition to the prizes already offered by the Committee on Games, there will be a special prize for a tug-of-war between fifteen members of the Mechanics' Union and fifteen members of the Miners' Union. Generally the "tug-of-war" has been between single and married men, but on this occasion it will show the relative strength of muscle of men on the surface and those working on the lower levels. There will doubtless be a long pull and a strong pull, as well as a pull altogether.

Thrown From a Horse.

The Carson Bee says: "Charley Holbrook, who keeps the Mountain House in Douglas county, yesterday received severe injuries by being thrown from a horse. He was riding down a slight declivity when the animal stumbled, throwing him from the saddle and falling upon him. The unfortunate man's collar bone was dislocated and his side and leg badly bruised.

Mackay at the Wheel.

John W. Mackay intends to remain on the Comstock for a month or more. He will personally superintend the operations at the north-end mines during Superintendent Patton's absence East.

Sheep for Wyoming.

A flock of 14,000 sheep has recently arrived in Reese River valley from Bakersfield, California. They are to be driven to Wyoming, whither the Keogh Brothers have preceded them with a flock of 30,000.

A FRIGHTFUL FALL.

A Woman Drops Over Sixty Feet from a Hotel Window.

On Saturday afternoon at about five o'clock, says the San Francisco Call, Lizzie Hammond, a chambermaid in the Brooklyn Hotel, on Bush street, being wanted at the office, one of the proprietors went in search of her, and not finding her on the first floor, to which she was assigned, continued his errand until he reached the room of George Phillips, on the fourth or upper floor, where he had reason to believe he would find the object of his search. Knocking at the door he received no answer, whereupon he announced that if the door was not opened he would break it in. At this Phillips unlocked the door, while Lizzie sprang from the window and attempted to slide down some telegraph wires, four of which descended from the roof of the Mercantile Library building, the easterly wall of which was about six feet distant from the window, which opened at the back of the hotel. The frightened chambermaid clung to the wires for a distance of about six feet, when she loosed her hold and fell to the ground below, a distance of 60 feet, and when picked up was insensible. It is thought that she struck against the walls on either side of the passage, thus in a measure breaking the fall, which would otherwise probably have been fatal. As it was she sustained a dislocation of the right shoulder and several bruises, and it is feared severe internal injuries. An inquiry at the hotel yesterday, revealed that the unfortunate woman was resting quietly, but the exact extent of her injuries could not be ascertained, no critical examination of them having been made by her attending physician. The woman is about 23 years of age, and has been engaged in chamberwork at the hotel on different occasions for several years past. The man Phillips from whose window she jumped, is a hotel runner, and has been lying sick at the house for three weeks past. Immediately after the accident he was ejected from the hotel. The reason assigned for the woman's leap is, that she objected to being found locked in the room of a man on the upper floor, her duties being confined to the lower floor, and she conceived the belief that she could slide down the telegraph wires and thus gain the lower floor where she belonged without being caught in her questionable position.

Church Sociable.

The ladies of the M. E. Church will have a sociable and literary entertainment at their church to-morrow (Wednesday) evening, when they will be pleased to see a good turn-out of the members as well as the friends of the church. Ice cream and cake will be supplied to the needy at 15 cents. The following programme will be rendered:

Recitation..... Miss Minnie Neale Song..... No. 18 Solo..... Mr. J. Sands Recitation..... Miss Kittie Loomis Dialogue..... Misses Irwin and Pechner Recitation..... Miss Maud Bates Reading..... Mrs. Ward Song..... No. 14 Recitation..... Miss B. Waggoner Song..... No. 305 Recitation..... T. F. Laycock

Wholesale Dealers.

Wines, brandies, whiskies, beer of all brands, and cigars are sold by Chelovich & Co. at San Francisco rates. The Wine House wholesale department cannot be beaten on Front street in San Francisco. Chelovich defies any San Francisco wholesale liquor merchant to undersell him. The sample rooms are carefully attended to by old Phil and Steve, and if you call for a plain or fancy drink that they cannot furnish you with, you will be awarded a chromo.

The Sugar Kings.

W. F. Berry and J. K. Everett have got a corner on sugar. The gentlemen stood on the corner of Virginia street and Commercial row yesterday for over an hour busily engaged in conversation. It was thought by their friends that they were putting a little fire under the political pot, but upon inquiry it was ascertained that they had run up a little job on Claus Spreckles, the Sandwich Islands sugar king. Eight pounds for \$1 is said to be the racket now.

Lost Man Department.

C. L. Russell of Bolivar, Missouri, writes Henry Hilp, Postmaster of Ward, to ascertain the whereabouts of J. N. Russell, a former resident of that place. The last heard of him he was in Frisco, Utah. He was at one time associated with James Hickey, now of Eureka, in the saloon business in Ward.

Returned Home.

Judge Webster has returned from his Pyramid Lake fishing trip. He says he had a delightful time. Fish are biting very well. He brought in quite a quantity of salted trout for his friends. The Judge was busy all the afternoon yesterday delivering fish to his friends. The GAZETTE was remembered.

Arrested.

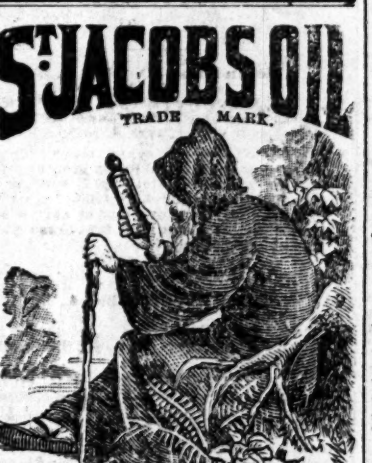

Constable Reed came in from the East last night with Thomas Moore, who recently shot a man in Aurora. Moore's victim lying in a very critical condition, caused Reed to go to Austin after Moore. He left with his prisoner this morning for Bodie.

Not Yet Qualified.

The Enterprise says the reason why Mr. Corbett, the newly appointed United States Marshal, has not yet qualified is on account of the way in which the United States statutes read as to his qualification, which is, that it must be before the United States District Judge of the District of Nevada. There having been no such Judge before whom he could present himself and his bondsman, he has been unable to qualify. Judge Sabin will probably take his seat on the bench in the course of the next two weeks, when Mr. Corbett will qualify. As to Deputy United States Marshal Ricketts doing all the work, it was discovered that the late United States Marshal Ash neglected to reappoint any of his deputies at the time he was himself reappointed. Mr. Ricketts was appointed (for the first time) by Ash at the time of his (Ash's) reappointment, which left him the only legal Deputy, and practically United States Marshal for the District.

A Boy's Love.

Of all the love affairs in the world, none can surpass the true love of a big boy for his mother. It is a love, noble and honorable in the highest degree to both, says a very prominent writer. I do not mean merely a dutiful affection. I mean a love which makes a boy gallant and courteous to his mother, saying to everybody plainly that he is fairly in love with her. Next to the love of her husband, nothing so crowns a woman's life as this second love, this devotion of a son to her. And I never knew a boy to "turn out" who began by falling in love with his mother.
